

# Learning Robotics and Engineering Concepts with LEGOS

*Every parent and educator know that kids enjoy learning when it's fun. And it's no secret that LEGOS can unlock a child's creative and inventive nature, allowing them to learn and discover without even realizing it! Our summer programs and events challenge kids to think creatively, problem-solve, and work as a team while reinforcing STEM skill sets.*

## **Bedford Town Hall - Summer Programs (Ages: \*4-5, 6-8, 9-12)**

Our summer programs are one weeklong, Monday through Friday, 9:00AM - 3:00PM. We offer various programs for children of all ages (4-13) to ensure that everyone learns something engaging and age appropriate.
